Note: Dear Students, We are going to conduct online submission from 6th April to 11th April. You need to submit only Tutorials and Assignments (NO question bank). For submission, you need to send your work through email to respective faculties from your institute email id only. In case of handwritten work, scan all pages and send it as a single PDF with your enrollment number and class name as it's title. If you are facing any issues because of lockdown, you need to send an email to your class counselor from your institute email and mention the DETAILED problem in it. In that case, you will need to complete the remaining process whenever the lockdown will be completed.
